Biotin Anti-DKYDDDDK tag Antibody

Catalog Number:	301113, 301114
Size:	25 μg, 100 μg
Target Name:	DYKDDDDK Tag
Regulatory Status:	RUO

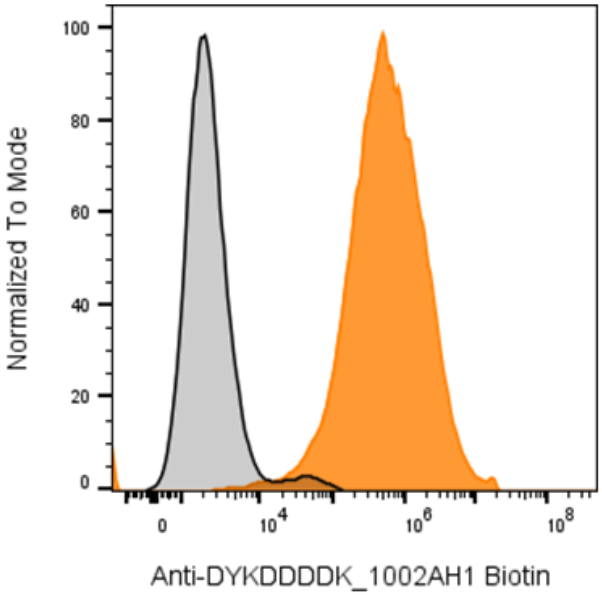

PRODUCT DETAILS

Clone:	1002AH1
Application:	Flow Cytometry
Reactivity:	DYKDDDDK tag, All Species Expected
Format:	Biotin
Isotype:	Human IgG1
Antibody Type:	Monoclonal
Formulation:	Phosphate-buffered solution, pH 7.2, containing 0.09% sodium azide and 0.2% (w/v) BSA
Protein Concentration:	0.5 mg/mL
Storage&Handling:	The antibody solution should be stored undiluted between 2°C and 8°C, and protected from prolonged exposure to light. Do not freeze.
Recommended Usage:	For flow cytometric staining, it is recommended to use less than 0.1 µg of this reagent per 0.5-1.0 million cells in a 100 µL volume. Optimal reagent performance should be determined by titration for each specific application.
Isotype Control:	301211
Price ($):	95

BACKGROUND INFORMATION

The DYKDDDDK Tag antibody specifically detects proteins containing the DYKDDDDK epitope, commonly known as the FLAG® tag (originally from Sigma®). It recognizes the DYKDDDDK sequence when fused to either the N-terminus or C-terminus of the target protein.

PRODUCT DATA

Multi-tag (including DKYDDDK) transmembrane protein transfected CHO cells were stained with either Biotinylated Anti-DKYDDDK tag clone 1002AH1 (color-filled histogram) or an isotype control (gray histogram), followed by SA-APC.
